

INNOVATIONS

Microventing Terms and Conditions

Innovations can provide microventing/perforation of wallcovering on most vinyl substrates through third-party vendors. Pricing for materials in which this process applies to, is located below in the pricing matrix. The prices do not include any additional freight to/from the third-party microventing facility, which is the responsibility of the customer/purchaser.

Standard Pricing

30 – 499 yards	- \$4.00/yard*
500 – 999 yards	- \$3.50/yard*
1,000 – 2,999 yards	- \$3.00/yard
3,000 – 4,999 yards	- \$2.65/yard
5,000 yards +	- inquire within

Microventing Lead Time

2-3 weeks from receipt of material

Additional Fees

- \$100 setup fee on orders under 1,000 yards (*)
- Freight to and from microventing facility (if applicable)

Microventing Terms and Conditions (in addition to standard Terms and Conditions)

- Microvented orders are treated as custom orders
 - o They are non-cancelable, non-refundable, not returnable.
 - o Financial obligations must be met prior to microventing
 - o Standard Innovations warranty no longer applies as material has been modified
- Microventing must be requested with material PO and will not be completed on previously ordered materials
- There is a 3% waste factor that must be considered when ordering material.
- Only full bolts/rolls of material will be microvented
 - o Innovations reserves the right to bill microventing on full bolts if the material received for microventing is less than a full bolt. For example: Innovations will charge 60 yards of microventing on an order of 45 yards (30 yard bolt + 15 yard bolt); as the 15 yards is not a complete bolt.

Warnings

- Do not use microvented materials in bathrooms with showers or in excessively humid rooms i.e., steamrooms
- Excessive cleaning of microvented materials may reactivate the paste underneath, leaving a hazy appearance

For any questions regarding microventing services, please contact your local Innovations sales representative or the Innovations Production Department at 212.807.6300
