

Experience Divine Proportions At The HD Expo

Preview Innovations' Summer Collection, *Divine Proportions*, an exploration of organic geometry & mathematical modernism in wallcovering.

New York City (April 2019) —Innovations debuts new Summer Collection, *Divine Proportions*, at the Hospitality Design Expo May 15 – May 17 in Las Vegas. Influenced by the 2019 Color Direction, Innovations selected contemporary tones of Grey, Navy Blue and Forest Green to showcase the newest products from the Design Studio.

Lattice, a spirited non-woven inspired by the bright tilework of Lisbon, will serve as the centerpiece on display. Preview other staples from the Summer Collection –
- *Cobra*, a laser cut leather-like wallcovering, *Hemlock*, a distressed wood and modern ombré wallcovering, *Mazarin*, a metallic accented cork wallcovering, *Vandal*, a three-panel mural and other carefully curated products ranging from rich fibered non-wovens to distressed geometric vinyls.

Innovations will exhibit in space 3021 at the HD Expo.

About Innovations:

A design-driven, family-owned company, Innovations in Wallcoverings, Inc., has been creating unique solutions for interiors since 1975. Their Design Studio, based in New York City, collaborates with artisans around the world to develop solutions for the vertical surface—wallcoverings, textiles, faux leathers—all offered with the highest level of personal service. At Innovations, the name speaks for itself.
